SKU: 6500

Categories: [Building Pumps](#), [Electric airless diaphragm pumps](#)

Dati Tecnici:

Power: 2 CV (1.5 kW)

Flow rate with MAX nozzle: 4.5 l/m

MAX pressure: 220 bar

MAX tube elevation: 80 m

Voltage: 230V/50Hz

MAX flow rate: 6.5 l/m

MAX nozzle size: 0.027

MAX tube length: 80 m

Weight: 50 kg

DESCRIZIONE DEL PRODOTTO

FEATURES

BLACK M is an airless electric diaphragm pump designed for the medium industries and craftsmen. It is the ideal solution for medium works in building, for spraying lacquers, paints, for furnitures polishing, in carpentry and handicraft.

The electric motor is H class, that means: maximum quality and safety. It can work in very bad conditions and with very high temperature. An automatic system stops the pump when exceeding the electric safety limits. The head block are in aluminium with hard nickel treatment, the valves in tungsten carbide. di lunghezza, di continuo.

The electric motor is H class, that means: maximum quality and safety. It can work in very bad conditions and with very high temperature. An automatic system stops the pump when exceeding the electric safety limits.

STANDARD SET UP

suction system kit, emulsions, S.S. (ref. **063152**)

pressure gauge kit (ref. **066000**)

high pressure hose \varnothing 6 mm, length 10 m. (ref. **060020**)

airless gun W650TOP (ref. **077400**)

self cleaning tip c/w seal and guard (ref. **69AXXX**)

APPLICATIONS

Acrylic, anti-rust, bitumen, emulsions, topcoats, primers, water based paints, woodstains, varnishes, enamels, paints, etc..

APPLICATION'S FIELD

Indoor and Outdoor Spraying • Renovations • Construction • Industrial • Painting roofs etc..

BLACK SERIES

BLACK series are new and improved airless electric diaphragm pumps, small-medium-high power, designed for spraying all products used in building, mechanics, woodworkings, carpentry, etc. These are very strong and handy pumps with a very easy maintenance. Sono apparecchiature molto forti e maneggevoli, la manutenzione è molto semplice.
